Based on the same 53-metre platform, Project S531 and S532 are the latest concepts from the Tankoa Yachts yard in Genoa.

Both of the new yachts are styled by Francesco Paszkowski and have a beam of 10.3 metres. The exteriors are similar, with the S532 (below) continuing the line of the off-centre arch along the side of the sundeck aft down the decks.

S532 has a distinctive sea lounge aft

The S531 (top) makes a virtue of oversized windows in the main deck and bridge deck accommodation areas. There are three VIPs and one guest double on the lower deck, with a main deck master and VIP. She sleeps 12 guests in all. The after area of the main deck can be configured with or without a hot-tub.

The S531 features plenty of indoor/outdoor spaces

Project S532 features an owner's suite and two VIPs on the main deck, two of which have folding terraces. On the lower deck are two guest cabins and a gym (which can also be configured as a guest cabin).

Aft in the bridge deck of S532

Tankoa Yachts revealed its first yacht, the 69-metre *Suerte*, at the Monaco Yacht Show in September. The yard is also building the 50-metre S501, which was recently sold by Yacht-Ology, and the 71-metre S701, which is yet to be sold. Both yachts are set for 2017 launch.
