## First 50m Tankoa Superyacht S501 Construction Update

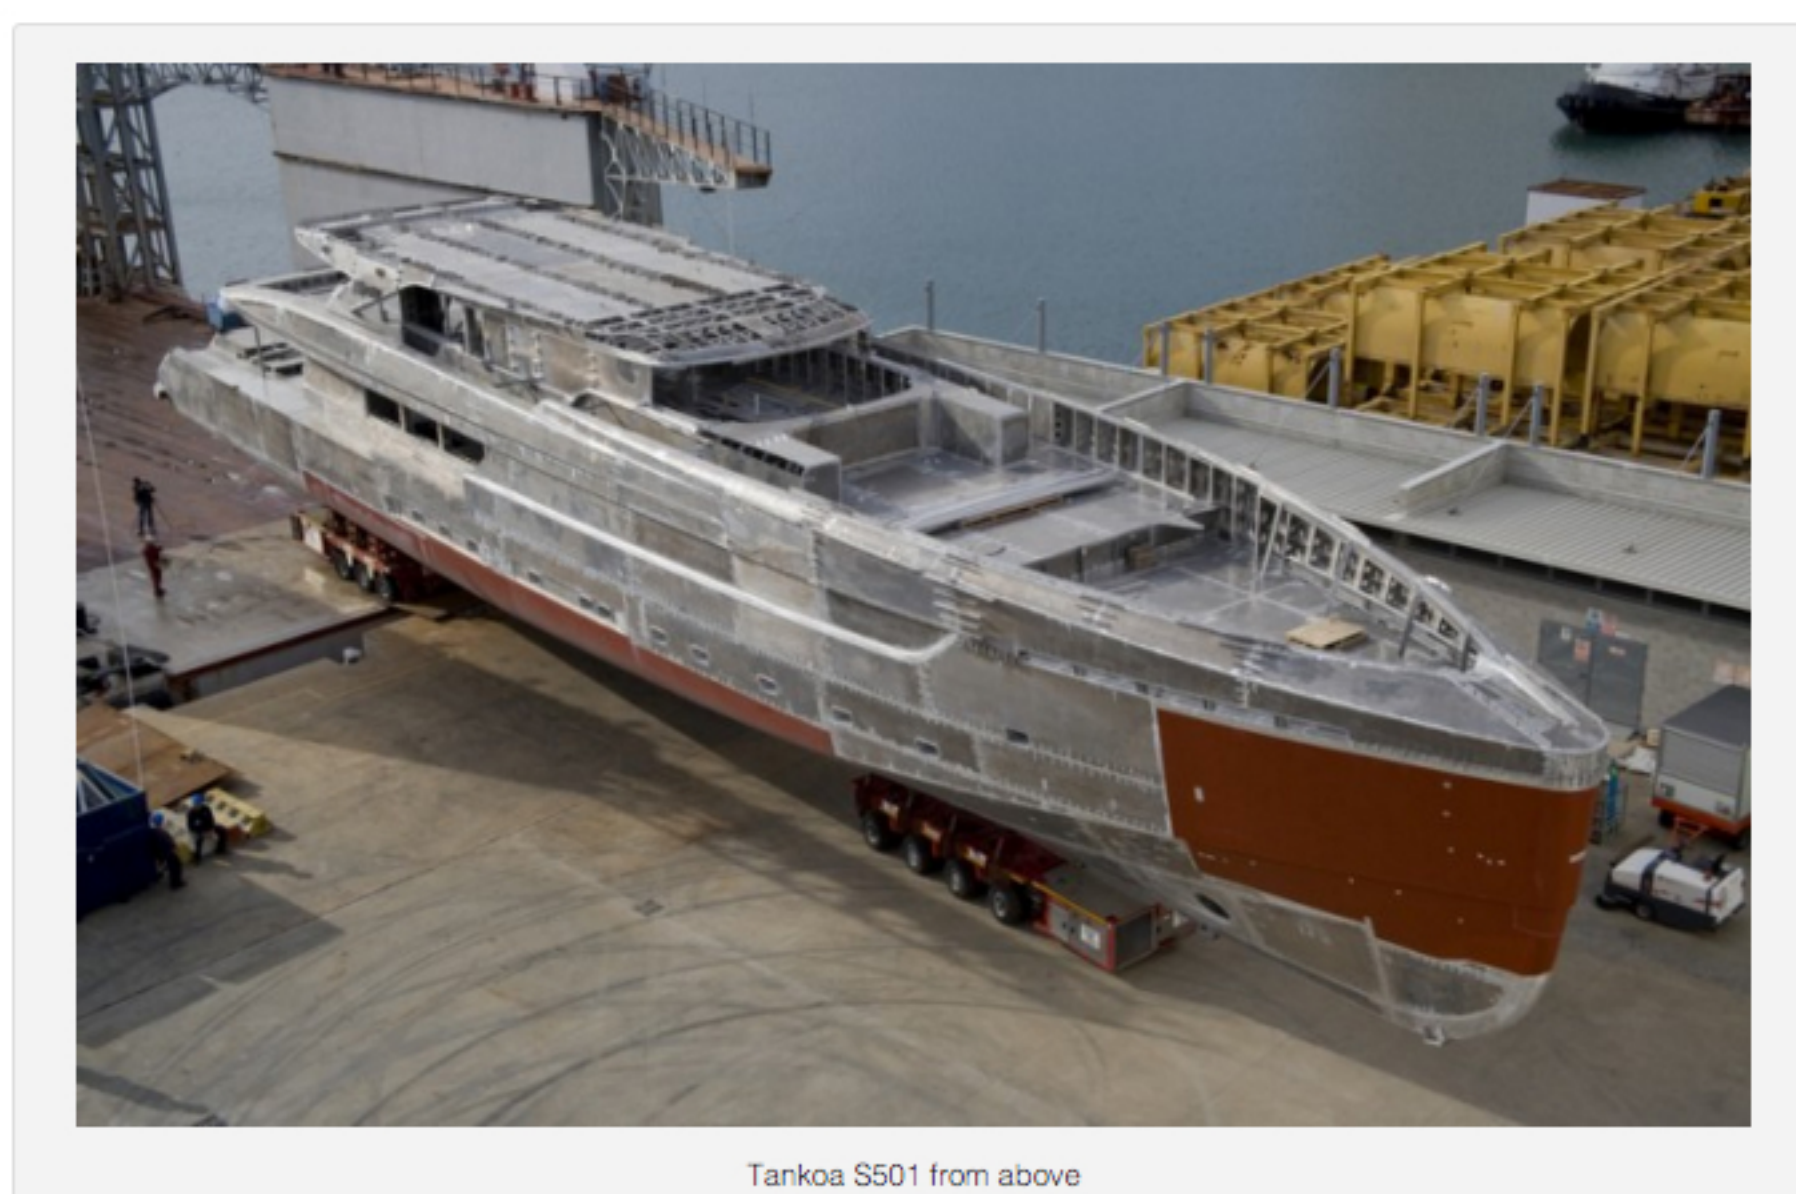

January 18, 2016

Construction of the first 50m superyacht S501 by Tankoa Yachts is well underway. A significant milestone has been recently reached with the hull, deck and superstructure, all in aluminium, completed and moved from Marina di Carrara to enter in the completion shed in Genoa on November 20, 2015. Engines and generators are already in and fairing started last month. The vessel is due to be delivered to its French Owner in April 2017.

Tankoa S501 being moved from Marina di Carrara to the completion shed at Tankoa Yachts in Genoa, Italy

Once completed, Tankoa S501 will boast a perfectly balanced and fluid timeless design by Francesco Paszkowski. She will feature six luxurious cabins, including the main deck full-beam master and VIP suite, as well as four lower deck guest cabins. Moreover, there will be a gym, home cinema, a 7m tender garage, as well as floor to ceiling windows and hydraulic balconies in the master cabin and on the aft deck. The interiors, created by Francesco Paszkowski in collaboration with Margherita Casprini, will reflect a modern, yet warm atmosphere.

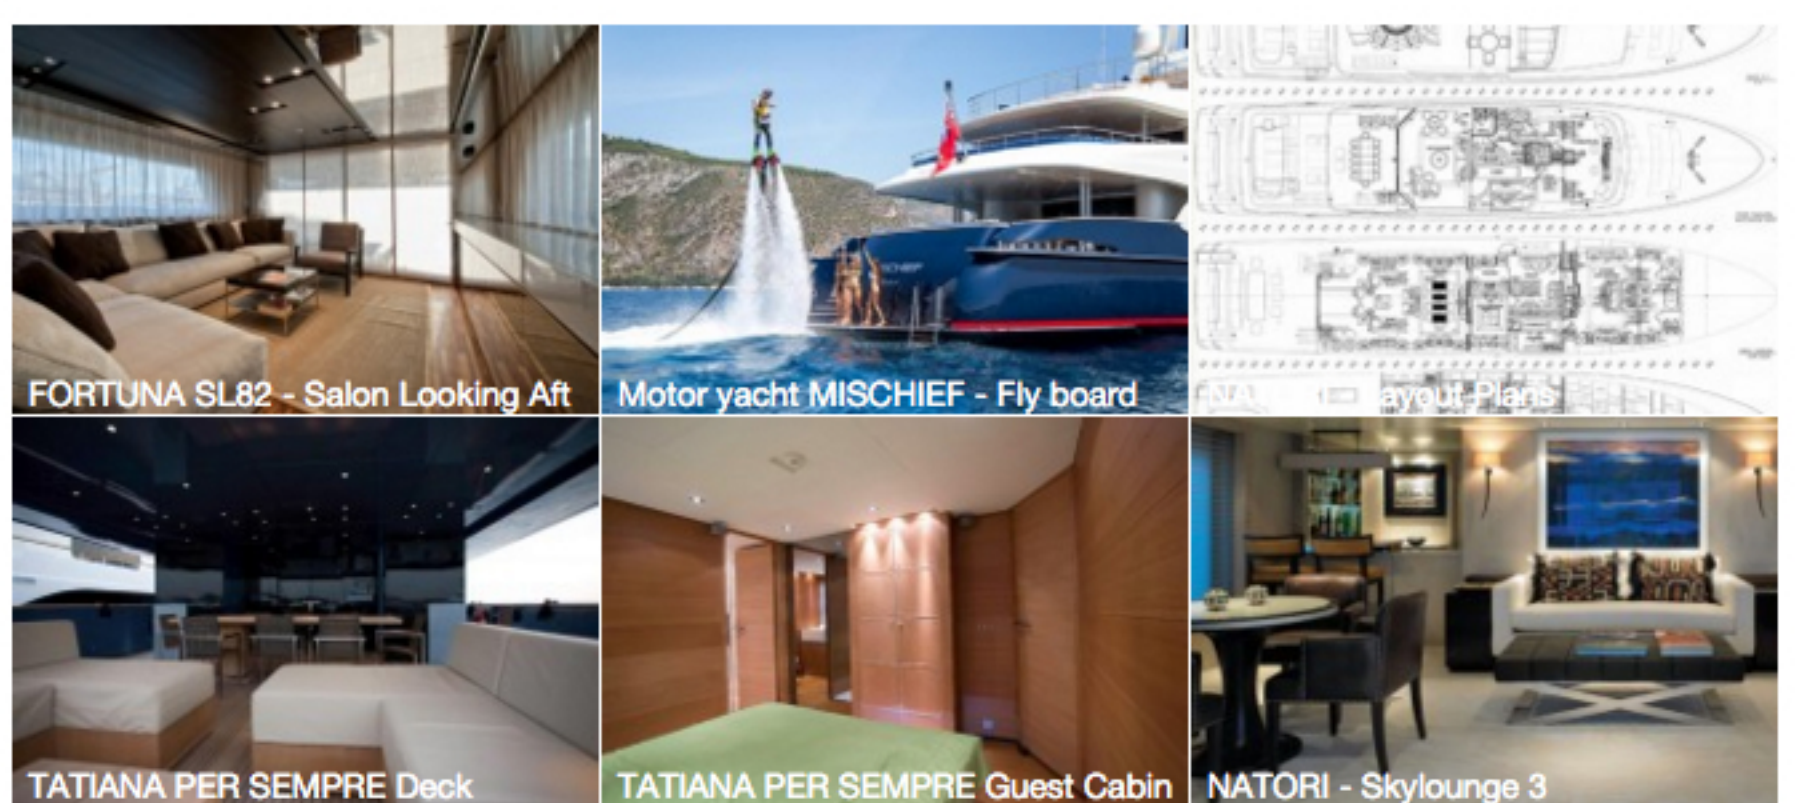

Tankoa S501 from above

First S501 by Tankoa Yachts will be a full displacement vessel, offering a range of 5,000nm at 12 knots and a 16-knot top speed. She will be entirely built in aluminium light alloy 5083.
